

# Next generation platform for syndication of venture capital and alternative investments

VNX Exchange is on a mission to transform VC investing into a new way combining benefits of professional VCs intelligence and distributed ledger reliability

VNX developed an end-to-end platform and a turnkey solution for VCs for syndication of the deals and organization of digital assets offerings in a safe, reliable and transparent manner.

Regular and/or professional investors can access these exclusive investment opportunities in a simple and user-friendly way on VNX platform.

Platform for deals syndication and digital VC investments

### Benefits for VCs:

- Build connections with investors and expand your global network
- Syndicate deals and improve deal flow
- Simple and quick automated tools

### Benefits for investors:

- Easy access to high-quality deals of leading VCs
- Deals are verified and managed by professional VCs
- Low entry ticket for investors

## VNX advantages

### REGULATORY COMPLIANCE AND INVESTOR PROTECTION

The platform is compliant with EU regulation and has the leading financial market standards of investor protections

### VARIETY OF PAYMENT METHODS

We created simple and user-friendly platform with variety of payment methods from fiat to cryptocurrencies

### TRANSPARENCY AND EFFICIENCY

Blockchain makes it possible to eliminate layers of the intermediaries and make transactions transparent and reliable

### UNIQUE OPPORTUNITIES WITHOUT BORDERS

Investors from different parts of the globe get access to pre-selected assets managed by recognized venture and investment professionals
